The natural origin of the leather doesn't guarantee the grain and the colour.  
L'origine naturale del pellame non garantisce la costanza della grana e delle tonalità delle tinte.

E' un pellame con colori in tinta unita, fiore a grana fine, tintura passante all'anilina.  
Di facile pulizia e dall'aspetto liscio. Estremamente duttile, ha un tatto morbido, e setoso.

Ideale per tutti gli imbottiti per arredamento ; dalle abitazioni al contract,  
dagli arredi navali all'impiego su aeromobili, sino agli interni per l'auto.

Per il migliore utilizzo da parte di Architetti e Designer, la gamma cromatica è composta da oltre 150 colori.

Misura media mq. 5,00. Spessore mm. 1,0/1,2.
